

Be PestSmart: Create wild spaces in your garden

 PestSmart

Encourage predators like frogs & hedgehogs to your garden to keep common pests at bay and you won't need to rely on pesticides.

Dedicate areas of your garden where you allow the grass to grow longer so insects can thrive.

Add a water feature to attract a variety of wildlife.

Tip: Shallow dishes or buckets will work.

Add birdhouses or feeders for birds.

Plant a variety of flower species to attract pollinators.

Letting weeds grow will provide food for pollinators and rely less on weedkillers.

Make a home for hedgehogs using small wooden logs.

Be PestSmart and help to protect people, water and wildlife
